INDIVIDUAL MEMBERSHIP

Individual membership for **UK residents** costs £36 a year, plus £8 per additional member of your household. Individual membership for residents of the **Irish Republic** costs £48.00 a year, plus £12 for each additional member of your household. **Groups** (UK residents **only**) should use the separate application form. All memberships run a full twelve months from the date of joining. Completed forms should be mailed to the address above.

Like it or not, we're going into a firearms-related campaign, in which those with a vested interest in squeezing gun owners some more will be making their case for doing so; defending the status quo, never mind seeking repeals of earlier misdirected legislation, is going to be difficult and may be expensive.

To represent shooters and re-enactors effectively, we must do so with the strength of numbers behind us, so your membership counts. As does your money. If you can manage a little extra for the war chest that will undoubtedly have to be drawn on soon, that will be helpful too.
